

Learning Overview, Homework and Events for Week Beginning 20.7.26 (Year 1 and 2)

Maths The Year Ones are starting their final sequence on Position and Direction where they will be describing movements and turns. The Year Twos have a week on consolidating their knowledge taught this year by working on problem solving questions linked to all maths areas of the curriculum

Number Sense Year 1 This week in Maths the children will be consolidating their knowledge taught this year in Maths Fluency.

Number Sense Year 2 This week in Maths the children will be consolidating their knowledge taught this year in Maths Fluency.

Weekly Diary Dates and Events

Last day of school – Wednesday 22nd July

First day back to school – Friday 4th September.

PE days

Yarner Class - Thursday

Kennick Class and Brimley Year 1s - Friday.

Please can your child come into school on their PE day wearing their PE kit.

Please can your child wear their PE kit on Sports day and bring a water bottle, hat and sunglasses. Please can they also come into school wearing sunscreen.

Please remember reading folders every day as we will be using them during our RWInc sessions.

Nature school

For each session, children should come to school dressed appropriately for outdoor learning. This includes:

- Trainers or sturdy footwear
- Trousers (no shorts or skirts)
- Comfortable, weather-appropriate clothing (e.g. waterproof coat if needed)

Homework

Reading

Children will be joining their new RWINC classes this week. They will have two books to take home to read. One of these books is the book they are reading in their group and is a celebration of what they can read. The other book is one that focuses on the sounds and words they have been learning and complements the main book. We have found that children who practise and read their books several times will increase their accuracy and fluency. Children will need books back in school every day for their RWInc lessons.

Maths

Number Sense – Year 1

This week in Maths the children will be consolidating their knowledge taught this year in Maths Fluency. Please can you look over any of the concepts from this year that your child has struggled with.

Number Sense - Year 2

This week in Maths the children will be consolidating their knowledge taught this year in Maths Fluency. Please can you look over any of the concepts from this year that your child has struggled with.

Year 2 spellings

Please can you practise any of the previous spellings your child has struggled with.
