Learning Overview, Homework and Events.

Week Beginning 9th November - Events for Year 1 and 2

Maths

Year 1 are moving on to place value within 100. Children will be counting forwards and backwards to 100 through 100 squares and missing number lines . They will be looking closely at the tens and ones that make up a number to spot patterns.

Year 2 Children are looking at money. Children will be counting different amounts of money including pence and pounds. They will then look at comparing and calculating money. The children will use their skills to count change and learn to make a pound.

Number Sense Year 1

Children will learn about making 6 from two numbers (the basis of addition) and partitioning 6 (the basis of subtraction). Children will start to remember some number pairs that make 6 and use equipment to support this .

Number Sense Year 2

Children will be looking at ' make ten and then' in terms of addition. Eg when adding 8 +5= . We know that 8+2= 10 and I have 3 left over to make 13.

Weekly Diary Dates and Events

PE days are as follows:

Yarner Class – Thursday
Brimley class and Kennick Class – Friday.

Please can your child come into school on their PE day wearing their PE kit.

Please remember reading folders every day as we will be using them during our RWInc sessions. We are also missing lots of our RWInc books, please can you check at home and send any in. Thank you.

Other dates
Children in Need - Friday 13th November 2026 – wear pyjamas or comfortable/cosy clothes
Anti – Bullying Week – Monday 16th November – Friday 20th November 2026
Odd Sock Day – Monday 16th November 2026

Homework

Reading

Children will bring home two reading books. One is the book they have been reading in their RWInc group, allowing them to celebrate and build confidence in their reading. The second book focuses on the sounds and words they are learning and supports their progress.

Reading these books several times helps to improve accuracy, fluency and confidence. If you're short of time, a quick way to help is to practise the red and green words in the book and see how quickly your child can read them. Please ensure that reading books are brought back to school every day for RWInc lessons.

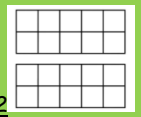

Maths

We will have a weekly arithmetic test every Friday. Please support your child by helping them practise and become fluent with the number facts they are learning in our Number Sense sessions. If you would like to do a little extra at home, practising number bonds and facts to 10 and 20 will be very beneficial

Number Sense – Year 1

Use your fingers to make 6 in different way eg 2 on one hand and 4 on the other. Get your child to copy your hand arrangement. See if children can make up one of there one for you to copy back.

Number Sense – Year 2

Make a tens frame on paper (see picture) big enough to put objects in. Give children a number sentence crossing ten eg 7+6= . Get children to work out the sum by filling one tens frame first and then fill in the next. What did they need to add to get to ten? What was left over?

Curriculum – Through the seasons.

In art this week children are looking at how to make secondary colour.

Children will be talking and learning about all the different seasons. What changes we can spot in the weather and nature.
